

University of the Cordilleras

(While narration is on, there is a Video , Slide show pictures about UC ,graphic and Animation that is flash and reveal in this presentation .

At first Slide the picture of Founder is going to flash considered the place where University of the Cordilleras begin)

Narration:

Baguio Colleges Foundation (1967–2003) was founded on June 19, 1946 by Atty. Benjamin R. Salvosa and his wife Evangelina D. Salvosa. Atty. Salvosa, sat as the chairman of the Board of trustees and held the reins of the presidency up the early part of 1994. BC was the first higher learning institution in this highland city after World War II. This milestone inspired the creation of Baguio City as the education center of the north.

Through the years, Baguio Colleges Foundation turns to be as University of the Cordilleras, the university has grown bigger through the offering of additional courses and increasing student enrolment. It continues to grow even better with time, as evidenced by excellent performance in various fields of discipline, with its graduates shining in national licensure examinations, and its alumni doing well in private employment, in the practice of their trade and profession, and in public service.

(While narration is on, graphics and logo of different colleges will show)

Narration: University of the Cordilleras proud to be Ucian for achieving the Achievements of CITCS

The College of Information Technology and Computer Science has recognized its responsibility to respond to the changing needs of society, particularly in the field of Information Technology.

The College is aware that today's technology revolves around the indispensability of the computer in the fields of computations, database systems, web & graphics, networking & security, mobile technology and digital arts.

The present courses offered by the College are geared towards bolstering computing competencies, a vital role it plays in the community.

In 2007, CHED conferred the highest academic status to the college as "Center of Excellence". UC holds the distinction of being among the nation's top nine (9) in IT education.

To accomplish these, the College shall make every effort to:

Upgrade periodically the Institution's course offerings focusing on innovative tools, current trends, and industry requirements;

Prepare the student to apply his/her acquired academic skills to his/her related profession with commitment and dedication;

Excel in the use of Information Technology (IT) facilities, their prototypes and development, including evaluations and tests; and

Become the Institution's number one provider of Information Technology tools to promote people productivity at lower costs.

The University aims into the next half century of service to the youth, we envision UC as a community of scholars more aggressively involved in the pursuit and advancement of knowledge in all its dimensions, as an end in itself and as a tool in personal, community and national development. UC shall help preserve and develop Filipino culture and values, shall assist in rearing the Filipino youth to their fullest potentials by training them to think critically and creatively, to act

positively, to contribute to the development of a wholesome family, community and the larger society

(This Motto will show at the Last part of presentation as End)

“A Beacon of Higher Education Beaming from these Majestic Mountain Highlands...”
